Introduction

MobiCraft theme is an e-commerce theme specifically made to enhance online Mobile e-commerce store. It provides numerous snippets for you to customize your store with attractive look & feel.

Benefits of MobiCraft Theme

- This theme will beautify the online ecommerce store
- It also provides various snippets to customize the store by giving an attractive look and feel.

Pre-requisites

- Following points must be followed before starting the plug-in installation:
 - You should login as an Admin in Odoo.
 - Check that your Odoo Instance is compatible for MobiCraft Theme.
 - An e-commerce module should be present in your instance to use this theme.

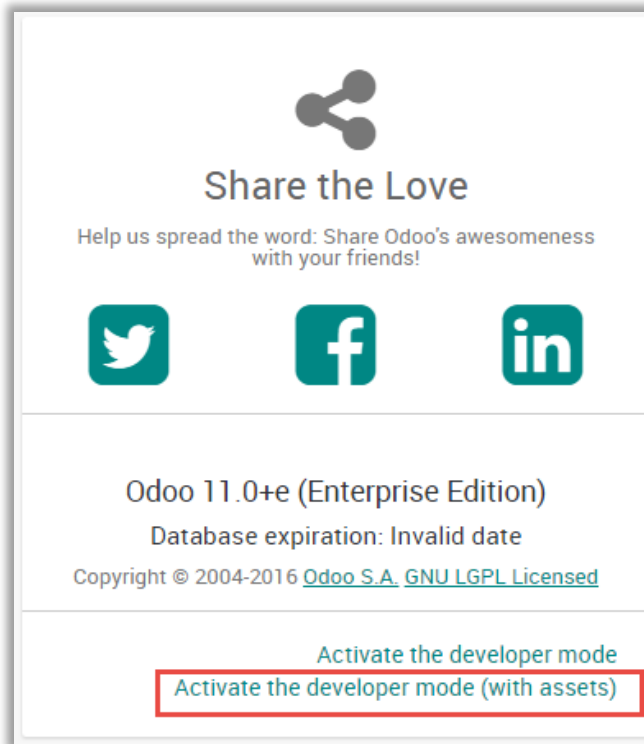

Note: MobiCraft Theme v11's all new features are not available in v8, v9 and v10.

Installation

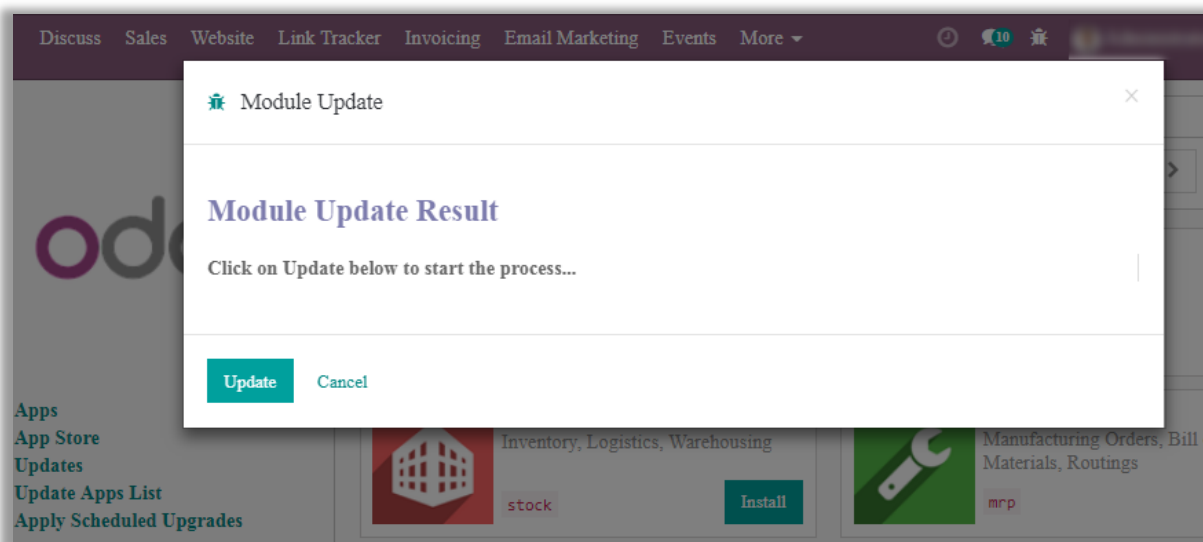

Installation Steps

- Download & extract the zip file.
- Check your Odoo add-ons path.
 - It should be same as defined in Odoo Config file.
 - Config files are mostly saved in /etc folder. For e.g. /etc/odoo.conf
 - **Open Config file:**
 - Give the command: `sudo/etc/odoo.conf`
 - Config file content: `addons_path = /opt/odoo/addons`
- Open Terminal and go to download location
 - For e.g. if the download location path is: /home/odoo/Downloads then the command to be written in the terminal would be: `cd/home/odoo/Downloads`
- Copy download modules to addons path
 - Give the below mentioned commands to perform copy operation:
 - `$cd /home/odoo/Downloads/theme_mobicraft`
 - `$cd v11`
 - `$sudo cp theme_mobicraft /opt/odoo/addons`
- Restart Odoo server
- Login with the admin credentials in your odoo instance.

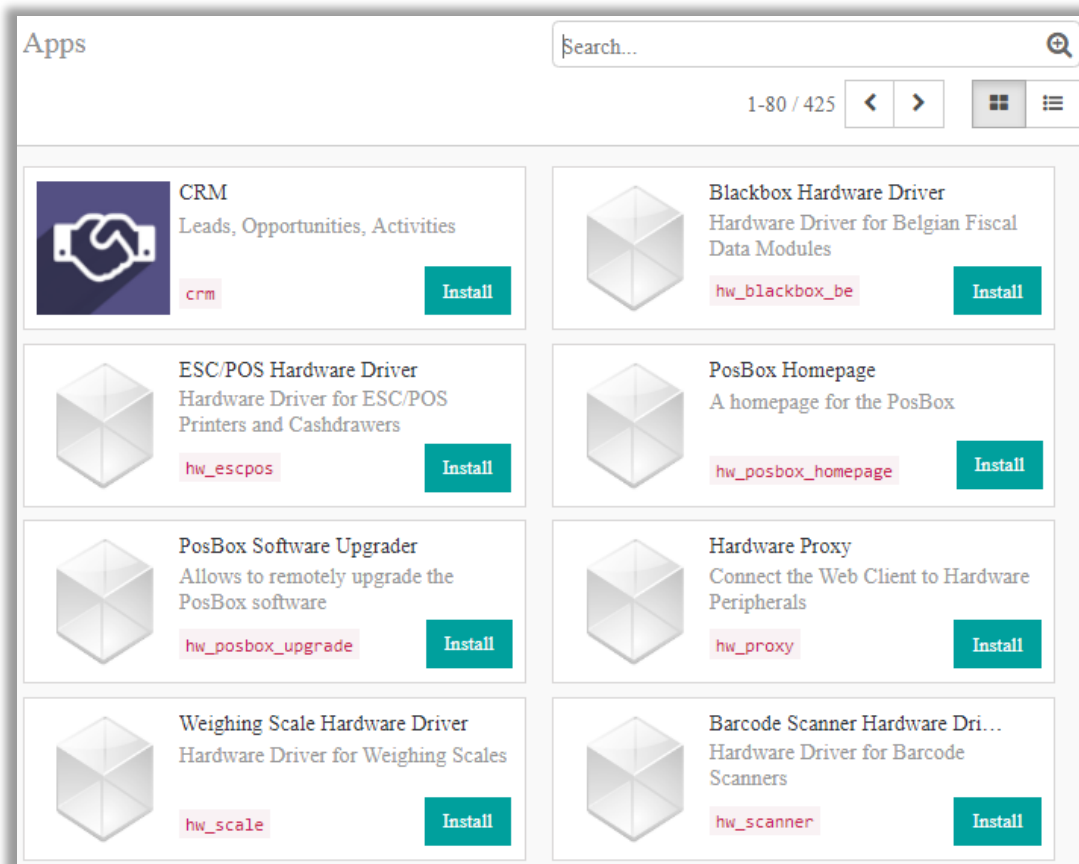

- Activate the Developer Mode
 - To activate Developer Mode, Go to **Settings -> Activate the developer mode (with assets)**. Click on **'Activate the developer mode (with assets)'** and developer mode will be activated.

- Go to Settings/Update Apps List.
 - Click on **'Update'** button.

- Go to Settings/Apps
 - Remove search filter

- Enter module name in the search box provided in the top right corner of the page. For e.g. here write "MobiCraft".
- Click on 'Install' button.

Access Rights Management

- Now after installing the theme, to manage the access rights of users go to **Settings -> Manage access rights**.
- By clicking on it you will be redirected to the Users module. Thereafter navigate to the detail page of the particular user for which you want to manage the access rights.
- Now under '**Access Rights**' tab from '**Website**' dropdown list select the '**Editor and Designer**' option to let the particular user modify the '**Slider Configurations**', '**Product Tags**' and '**Product Multiple Images**'.

Configuring Multi Product Slider Snippet

- Go to **Website -> Edit -> Insert Blocks -> Multi Product Slider**. Drag and drop Multi Product Slider Snippet on the page where you want it.
- Select the Type of slider which you want to display on the page.
- Click on '**Customize**' to customize Style, Background and Color of the Snippet. You can Move, Copy and Delete the snippet from here. You can also resize the Snippet as per the need.

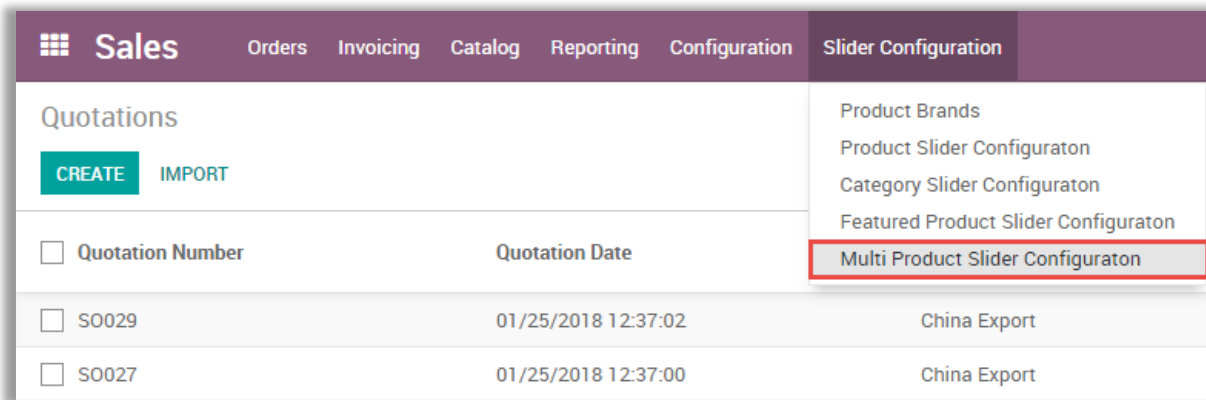

The image shows a configuration window titled "Multi Product Slider Configuration". It features a "Type" label followed by a dropdown menu currently set to "Trending". At the bottom right, there are two buttons: "Cancel" (blue) and "Apply" (red).

- Add a snippet to your E-Commerce store containing exclusive products from product list.
- From this snippet your customer can directly add product to the cart and can also see ratings of the added product.
- Multi Product Slider snippet supports two different widths:
 - Full Page Width Slider
 - Box Width Slider

Managing Slider Configurations

- Go to Sales -> Slider Configuration -> Multi Product Slider Configuration. Click on 'Create' button to create a new slider category.

- Set following attributes to display Multi Product Slider on website:
 - Slider Name:** Enter Slider Name.
 - Auto Rotate Slider:** Enable this to set slider on Auto Rotation.
 - Slider Sliding Speed:** Manage Slider Speed if set on Auto Rotation.
 - No. Of Collections to Show:** Number of collections that are displayed on the page.
 - Collection Name:** Name of the Collection.
 - Product Collection:** Set products which are to be displayed in the collection.

Configuring Collection Snippet

- Go to **Website -> Edit -> Insert Blocks -> Collection**. Drag and drop Collection Snippet on the page where you want it.
- Click on '**Customize**' to customize Style, Background and Color of the Snippet. You can Move, Copy and Delete the snippet from here. You can also resize the Snippet as per the need.
- You can customize every block of the snippet. You can customize single collection block as well as combined Collection block. You can click on any image to change the image or remove the image. Along with image you can also add Text, Document, Pictogram and Video to the snippet.
- You can set button for your customer to navigate him / her directly to the collection Page.

- Collection Snippet will allow you to display your most fascinating collection of products to your customers. You can manipulate block images along with text of the block. You can also set navigation buttons on the snippet block as per the need and navigate customer to specific links.

Configuring Brand Slider Snippet

- Go to **Website -> Edit -> Insert Blocks -> Features**. Drag and drop Brand Snippet on the page where you want it.
- Set Total Counts & Label for the Brand Slider before adding it to the Website.

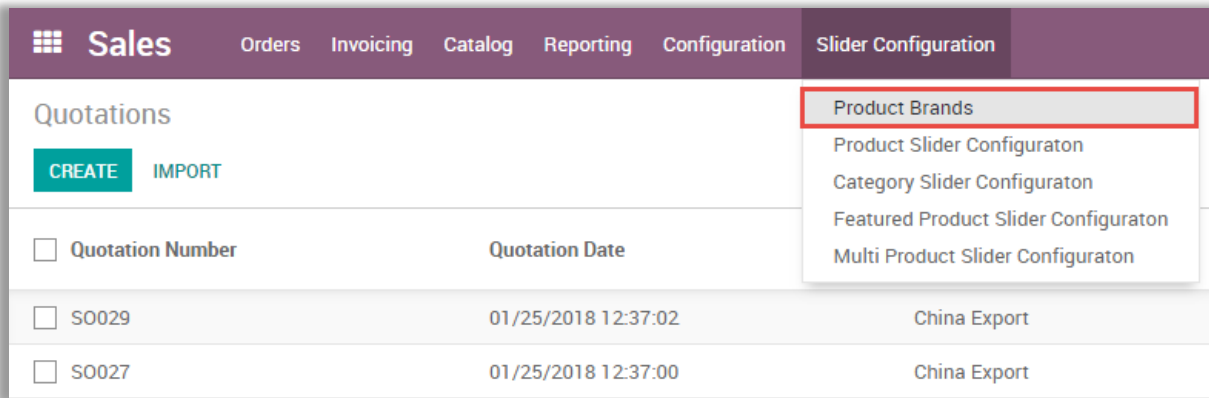

The image shows a 'Brands Slider Configuration' dialog box. It has a title bar with the text 'Brands Slider Configuration'. Inside, there are two input fields. The first is labeled 'Total Count' and contains the placeholder text 'Enter Count'. The second is labeled 'Label' and contains the placeholder text 'Enter Label (for e.g: Our Brands)'. At the bottom of the dialog, there are two buttons: 'Cancel' and 'Apply'.

- With the Brand Slider Snippet display all the highly engaging brands from your store. Customize content and images for exclusive look & feel of the banner.

Adding Brands to Brand Snippet

- Go to **Sales -> Slider Configuration -> Product Brands**. Click on 'Create' button to create a new Brand for the Shop.

- Now Add Brand Name, Brand Logo, Brand Cover, Associated Brand Products and Brand Description saving the brand.

The screenshot shows the 'Brands / New' form in Odoo. The form includes a 'Brand Name' field with the text 'Apple Inc.', a 'Brand Logo' field with an Apple logo, a 'Brand Cover' field with a large Apple logo image, and a 'Description' field with the text 'Apple Inc. is an American multinational technology company headquartered in Cupertino, California that designs, develops, and sells consumer electronics, computer software, and online services.' The form also has 'SAVE' and 'DISCARD' buttons at the top.

- To associate Brand to the Products, select any Product and add Brand Name to associate it.

The screenshot shows the 'Products / New' form in Odoo. At the top, there are buttons for 'SAVE' and 'DISCARD'. Below these are status indicators: 'Unpublished On Website', '\$ 0 Sales', and 'Active'. The main form area has a 'Product Name' field with 'iPhone 7' entered. To the right of the name is a small image of a smartphone. Below the name is a 'Brand' dropdown menu with 'Apple Inc.' selected and highlighted by a red rectangle. Under the brand field are three checkboxes: 'Can be Sold' (checked), 'Can be Purchased' (checked), and 'Add Multiple Images?' (unchecked). Below these are tabs for 'General Information', 'Sales', 'Invoicing', and 'Notes'. The 'General Information' tab is active, showing fields for 'Product Type' (Consumable), 'Category' (All), 'Internal Reference', and 'Barcode'. At the bottom, there are fields for 'Sales Price' (\$650.00) and 'Cost' (\$150.00).

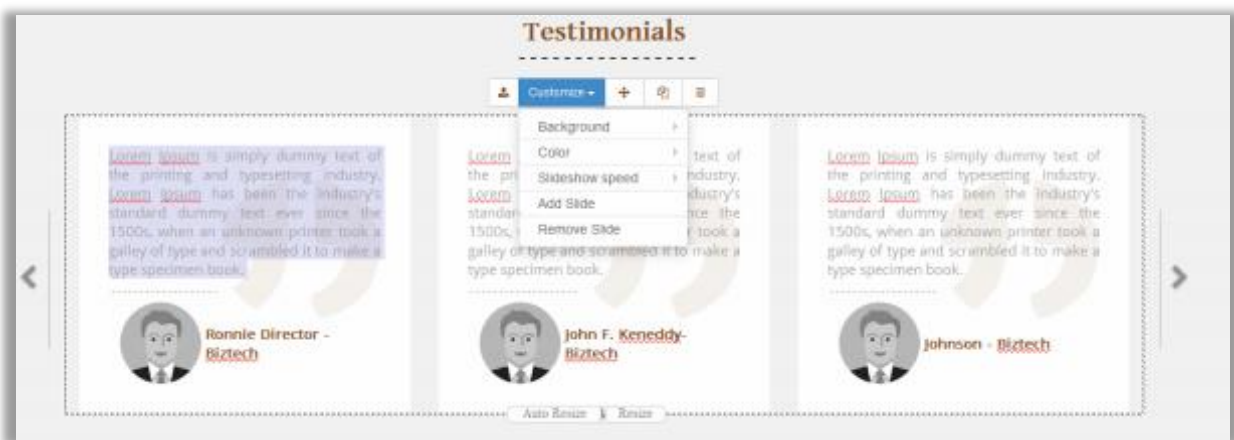

Configuring Single Banner Without slider

- Go to **Website -> Edit -> Insert Blocks -> Features**. Drag and drop Single Banner without Slider Snippet on the page where you want it.
- Click on Image, Text and Button to change it as per your likings.

Configuring Testimonial Snippet

- Go to **Website -> Edit -> Insert Blocks -> Testimonials**. Drag and drop the Snippet on the page where you want it.
- Click on **'Customize'** to customize Style, Background and Color of the Snippet. You can Move, Copy and Delete the snippet from here. You can also resize the Snippet as per the need. You can customize client area background as well as whole snippet background. You can also add multiple slides to the snippet to show numerous testimonials.
- You can customize every block of the snippet. You can customize single testimonial block as well as combined testimonial blocks. You can click on any image to change the image or remove the image. Along with image you can also add Text, Document, Pictogram and Video to the snippet.

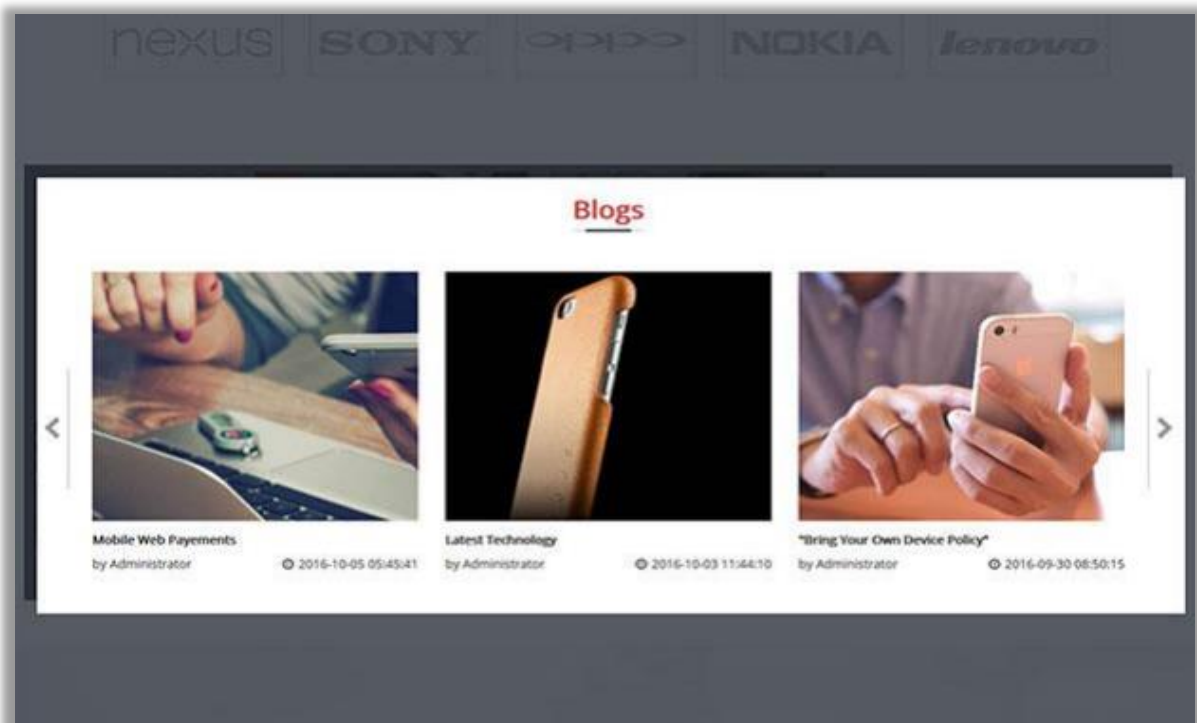

Configuring Blog Slider snippet

- Go to **Website -> Edit -> Insert Blocks -> Blog Slider**. Drag and drop the Snippet on the page where you want it.
- Select the type of Blog which you want to display from the menu.
- Click on '**Customize**' to customize Style, Background and Color of the Snippet. You can Move, Copy and Delete the snippet from here. You can also resize the Snippet as per the need.

The screenshot shows a configuration window titled "Blog Slider Configuration". It features a label "Type" followed by a dropdown menu currently set to "Blogs". At the bottom right, there are two buttons: "Cancel" (blue) and "Apply" (red).

- Display the latest blogs posted by your site or related to your products with Blog Slider Snippet provided by the theme.

Adding Blogs to the Snippet

- Go to **Website > Blog -> Blog Slider Configuration**. Click on **'Create'** button to create a new Blog category.
- Set following attributes to display Blog Slider on website:
 - **Slider Name:** Enter Slider Name
 - **Slider Label:** Set the label for the slider
 - **Products Collection:** Set the products to be displayed in the slider.
 - **Collection of Blog Posts:** Add the Blogs which are needed to be added in the collection.
